

Antenna Mounts and Accessories

M6 Mount

Pair of bulkhead mounts with anodized straps and stainless steel machine screws for 1" dia. base tubes or stanchions. Mounting hole spacing: 3-3/8" center-to-center

M9 Mount

Pair of bulkhead mounts with anodized straps and stainless steel machine screws for 1-1/2" dia. base tubes or stanchions. Mounting hole spacing: 4" center-to-center

Pair of M6 Mounts shown with stanchion.

M600 Laydown Mounts

Bottom swivel mount with stud to provide double swivel action for deck or bulkhead mounting. Upper mount with latch bar for removal and laydown of antenna. Comes with SS hook to hold stanchion in laydown position. For 1" dia. stanchions.

M900 Laydown Mounts

Bottom swivel mount with stud to provide double swivel action for deck or bulkhead mounting. Upper mount with latch bar for removal and laydown of antenna. Comes with SS hook to hold stanchion in laydown position. For 1-1/2" dia. stanchions.

M32R Mount

Round flange mount with 1"-14 male thread (silver anodized finish) Made of machined aluminum. (Replaces M32 PN: 9037)

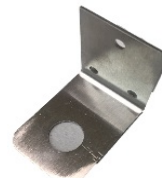

M81 Mount

2" long pad mount. Includes neoprene gasket, stainless flat washer, lock washer and hex nut. For use with our Deluxe style antennas. Silver anodize finish.

M83 Mount

2" long pad mount with 3 holes. Includes neoprene gasket, stainless flat washer, lock washer and hex nut. For use with our Deluxe style antennas. Silver anodize finish.

M84 Mount

Stainless steel angle bracket with hole for M81 mount and side mounting holes.

M85 Mount

Fits 1" dia. stanchion with double 239 adapter. For use with our Deluxe style antennas. Gold or silver anodize finish.

M87 Adapter

4-1/2" adapter with 1"-14 female threads on bottom end. Has side-hole for coax cable. Accepts 1" dia. stanchion. Available in gold or black anodize, or white powder coat finish.

Antenna Mounts and Accessories

M88R Mount

Round flange mount for 1" stanchion pipe (silver anodized finish) Made of machined aluminum. (Replaces M88 PN: 9064/9065)

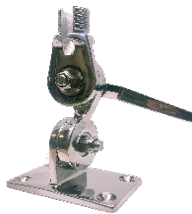

M89 Adapter

1" pipe adapter with 1"-14 male thread one end. Other end fits 1" dia. base tube or stanchion. Available in gold anodize or white powder coat finish.

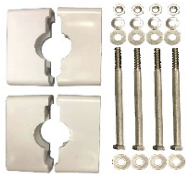

M91 Adapter

1" - 14 female thread. Mounts to 1" male thread on stainless steel ratchet or flange mount, like our M99 or M32R. (Also available with no side-hole) Available in gold or black anodize or white powder coat finish. Also available in white or black acetal plastic.

M99 Ratchet Mount

Polished stainless steel adjustable lay-down ratchet mount. Base dimensions: 3-3/4" x 2-1/4". Side slot/hole for easy coax installation through mount.

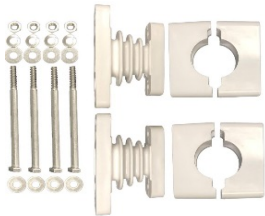

M1 Mount

Pair of split mounts providing 360 degree support to antenna. Stainless steel studs, washers and nuts. Mounting hole spacing: 2-1/4" center-to-center. For 1" dia. base tubes and stanchions.

M5 Extensions

Pair of extensions for heavy-duty installations as well as long leakage path.

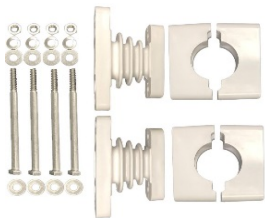

M15 Mount

Combination pair of M1 split mounts and M5 mount extension. Recommended for all heavy duty installations. Flexible yet exceptionally strong. Mounting hole spacing for M5 extension: 3-1/4" center to center. For 1" dia. tubes.

M7 Mount

Pair of split mounts providing 360 degree support to antenna. Stainless steel studs, washers and nuts. Mounting hole spacing: 2-1/4" center-to-center. For 1-1/2" dia. base tubes and stanchions.

M75 Mount

Combination pair of M7 mounts and M5 extensions. Mounting hole spacing on M5 extensions: 3-1/4" center-to-center. For 1-1/2" dia. base tubes and stanchions.
